

**Award of CAS President's International Fellowship Initiative (PIFI) as a visiting scientist to Prof Dr Robina Farooq**

A visiting scientist fellowship was awarded to Prof Dr Robina Farooq, Department of Chemistry, under CAS President's International Fellowship Initiative (PIFI) by Bureau of International Cooperation Chinese Academy of Sciences. Prof Robina Farooq visited Prof Dr Yongyu Zhang, Qingdao Institute of Bioenergy and Bioprocess Technology (QIBEBT), Qingdao, China where she delivered lectures on Bioelectrochemical systems for carbon dioxide harvesting and supervised Post Doctorate project on marine sediment microbial fuel cell. During her visit, research collaboration is strengthened with QIBEBT Qingdao, South Central University of Nationalities, and Wuhan Agriculture University, China. It is expected that professors from all these Universities will work for joint supervision of PhD and Post Doc scholars, joint publications and for joint submission of projects for funding.
