## IMF eLibrary and Data eLibrary

### Important Note:

Please note that CIIT users will be verified through the IP address of CIIT Campuses as we have IP based access of these resources.

With IP access, no sign in is necessary to view the content as access is automatically granted to anyone coming from an authenticated IP address.

However, if you wish to save searches, results, download data, or set alerts, you will need to set up a "personal" account. You can do this at your own (no action by the IMF or the account administrator is required) by clicking the 'Register' option on the data site and the 'Sign Up' option on the text site and following the instructions.

You must set up "personal" accounts on both data <u>http://elibrary-data.imf.org/DataExplorer.aspx</u> and text sites <u>http://www.elibrary.imf.org</u> separately in order to use the personalization on both sites, although the credentials can be the same.

## Procedure of Creating Personal Account on Data eLibrary

#### Step 1

Copy and paste <u>http://elibrary-data.imf.org/DataExplorer.aspx</u> this link to your browser.

- Following screen will appear
- Click Sign In or Register on this screen
