Acknowledgement

All praises to the Almighty Allah, who enabled me to complete my assignment. Successful completion of this report would not have been possible without co-operation of many individuals. I offer my sincere appreciations to all those who offered their help in this endeavor.

I truly acknowledge the cooperation and help offered to me by Miss Nagina Shafi, Deputy Treasurer, CIIT Lahore. She has been a constant source of guidance and inspiration throughout the course of this project. I am also grateful to Mr. Ishtiaq Khan and Mr. Naveed Sabir (Library Staff Members) for helping me throughout the report and providing me the essential feedback. I am also thankful to my friends, whose silent support led me to complete my report.

Preface:

The CIIT Lahore library is a hub of knowledge and provides the reading material for research and reference purposes to its patrons. The Library's mission is to provide comprehensive resources and services in support of the research, teaching, and learning needs of the COMSATS community.

The above said target can be achieved only if the collection development of library resources will made in balanced and appropriate design. If library have reasonable resources in all disciplines than the library patrons can get maximum benefits through these resources. Consequently research culture will be improved in the institute.

In my opinion, authorities of the COMSATS, concerned HODs, faculty and staff should know about the library resources. To provide the up-date knowledge about the purchased library books I have decided to prepare the comprehensive report from beginning to-date.

Through this report, the authorities should know the fact and figures about the assets of the library and this report will also facilitate while planning of collection development.

Introduction:

The CIIT Lahore Library was established on March 2002. With limited furniture and three staff members the library started its working in Block C then after one semester, it has been shifted in Block D and in 2003 the library got its almost permanent place in workshop # 1. The library started its working in two shifts (Morning and Evening) with more than hundred users.

Mr. Muhammad Aslam was the first librarian and on March 21, 2002 he acquired 6 books amounting Rs 2425.00 from M/S Galaxy Books. The first book entitled Computer confluence: Exploring tomorrow's technology by Larry was purchased for the library. By the purchase of this book the process of collection development has been started and till now its on the way with full swing. Now by the grace of Allah the library has 14161 books of worth Rs. 15336134.66.

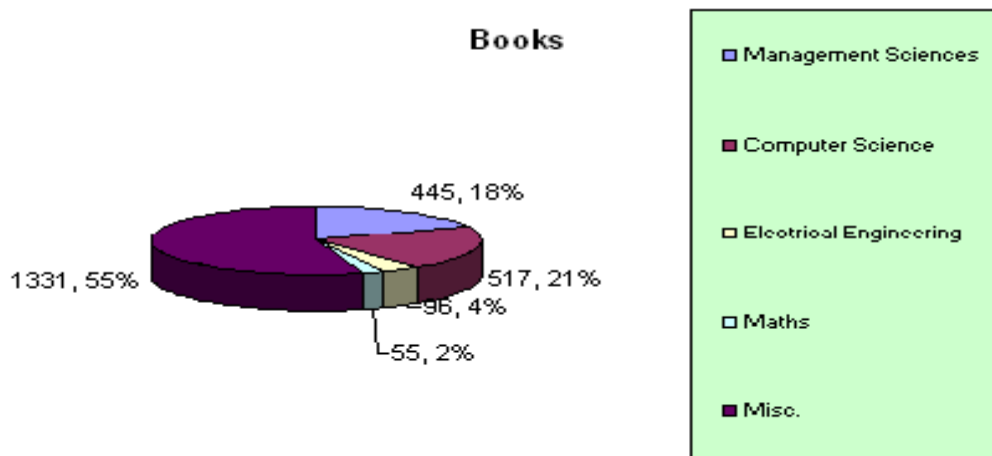

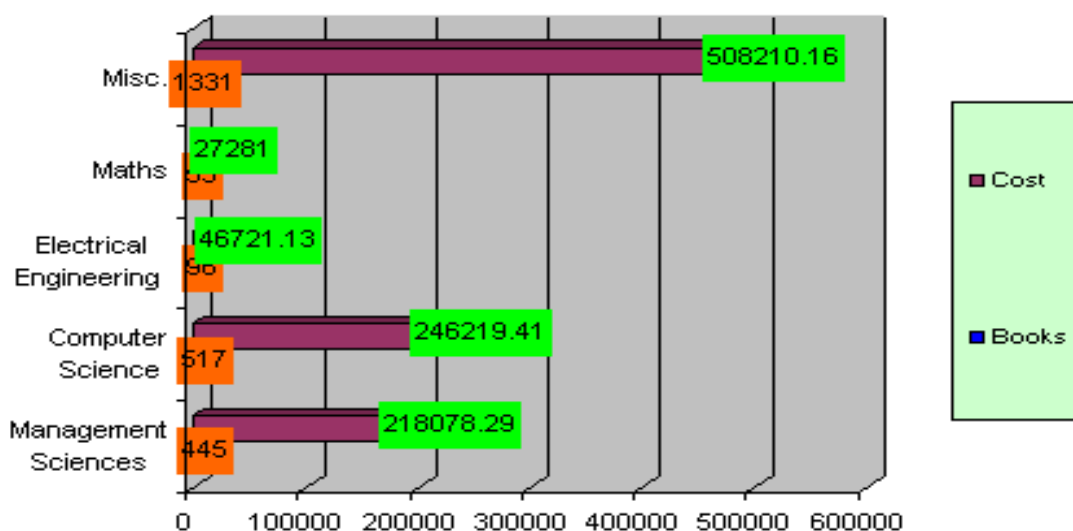

These 14161 books include 1064 donated books received from some of our faculty members and students.

If we analyze the report than we came to know that cost of single book is Rs.1082.98. In 2005, we have purchased 3112 books amounting Rs. 3124583.85, which is most bulk purchase in a year. The figures in report enlighten us that the costly books was purchased for Chemical Engineering Department where a single book cost was Rs. 3040.11 and books related to Architecture & Design was at number second, due to its cost, its single book rate is Rs. 2439.96. The single book price of other departments as low as Rs. 1000.00 only.

This report covers only the acquisition of books status of the library and other material such as Journals, Magazines, CDs, DVDs are not included in this report. In Vol – II, I will prepare the comprehensive report of subscription of Journal / Magazines subscribed by the library from 2002 to 2008 and in Vol – III, the library other material such as CDS, DVDs, Audio Visual material will be covered. The said two reports will be prepared very soon (Insha Allah).
