Abstract:

Two departments of human life are of vital importance (i) Financial Resources: to survive by having basic needs of life (ii) Reproduction and good brought up of constructive group of people for the survival of humankind and progress of a civilized state. The existence of civilized human race is impossible without the proper handling of these two institutions, so are divided equally between man and woman where man is selected as financial maintainer of his wife so that she can only focus on development and training of new generation to make them a useful individual of Islamic state. As because the human females are fixed by reproductive system so they have to go through the natural monthly menstrual process for which there exist many misogynistic traditions, myths and concepts in pre-Islamic period but Islam recognized it as a natural biological process so only implied the restriction of sexual intercourse in the particular period and used the word izen for the disastrous effects of intercourse during menstruation revealed by latest scientific researches.
