

Seminar on “Technology for Visually & Physically Impaired People”

Wednesday 4th October 2017

Mr. Samar Kamal Fazli (Assistant Professor Department of Humanities) organized a seminar on “Technology for Visually & Physically Impaired People” on Wednesday 4th October 2017. Ms. Maria Nazeer from the department of Computer Sciences assisted to organize the seminar as a team member. Mr. Hassan Khan Tareen Assistive Technology Specialist from LUMS delivered the seminar. The resource person shared his success story with the audience and told how he became a successful professional with the help of technology despite being visually impaired. He informed how a university campus can be made accessible for the special people to pursue their studies. At the same time, he also shared the research avenues where software engineers can come up with products for visually impaired people.
