

2nd Symposium on Advancement in Dental Materials

Translational R&D in Pakistan - on March 21st, 2023 at IRCBM
Funded by Higher Education Commission Pakistan under HEC-NRPU 10909

IRCBM has been a pioneering translational research centre in Pakistan, dedicated to the development of biomaterials for clinical applications since 2008. The **Dental Materials (DM)** group is organizing a one-day interactive symposium (Hybrid) that will showcase the latest advancements in dental materials. The primary objective of this symposium is to encourage the prompt exchange of scientific information between academic professionals and dentistry practitioners.

Prof. Dr. Olivier Huk
INSERM
Strasbourg University, France

Dr. Ing. Franziska Shimdt
Charité - Universitätsmedizin
Berlin, Germany

Dr. Abdul Samad Khan
Assoc. Professor
IAU, Saudi Arabia

Dr. Saroash Shahid
Senior Lecturer
Queen Mary University, London

Prof. Dr. Nasir Saleem
Head Operative Dentistry
CMH, Lahore

Prof. Dr. Aqif Anwar Ch.
Head IRCBM
CUI, Lahore
Organizer

Dr. Nawshad
Assoc. Professor
KMU, Peshawar

Dr. M. Sharjeel Ilyas
Assistant Professor
PGMI, Lahore

Dr. Muhammad Yar
Assoc. Professor
IRCBM, CUI Lahore

Dr. Mehmood Asghar
Assistant Professor
AMC, (NUMS)

Dr. Asma Tufail Shah
Assoc. Professor
IRCBM, CUI Lahore
Organizer

Poster Competition

Proposed Size: 4 x 2'

Limited slots

Important Dates & Deadlines

Abstract for poster submission: 15-03-2023

For registration: 17-03-2023

Objectives:

- To provide an overview of the latest developments in dental materials research
- To promote interdisciplinary collaboration between researchers, clinicians, and industry professionals.
- To foster a deeper understanding of dental material sciences, including material properties, characterization techniques, and their clinical evaluation.
- To explore the role of emerging technologies such as digital dentistry, additive manufacturing, and biomimetic materials in the development of next-generation dental materials.
- To showcase case studies and success stories of innovative dental materials.
- To discuss ethical and regulatory considerations associated with the development of dental materials, and to explore avenues for responsible innovation and commercialization.

Thematic Areas:

- Biomaterials for dental applications
- Dental ceramics and composites
- Nanotechnology in dentistry
- Dental implants and prosthesis
- Materials for minimal invasive surgeries
- Materials for endodontic and periodontal procedures
- Tissue engineering and regenerative dentistry
- Clinical applications and case studies
- Drug Delivery Application

Who can Attend:

- Researchers / Clinicians
- Industry professionals
- Stakeholders interested in dental materials
- Students from natural & physical sciences

Call for Abstracts

You can submit abstracts for oral & poster presentations to
muhammadshumail@cuilahore.edu.pk
