

PPRA E-Procurement (EPADS) implementation

Dear Vendors,

Many of you must be aware that the Federal PPRA has designed a comprehensive web-based software platform to shift the procurement process from the traditional **manual mode of procurement** to **Electronic Procurement** i.e. E-Pak Acquisition & Disposal System (EPADS). CUI Lahore also plans to implement this system immediately as instructed by the guiding/ controlling ministry/bodies. However, the success of this implementation is heavily dependent on the registration of vendors on the EPADS enabling them to participate in our procurement opportunities and to ensure wider participation of vendors. To check the status of registration on EPADS and to update some basic information about vendors, the following online form has been developed and vendors are requested to take a few minutes to fill the form.

<https://docs.google.com/forms/d/e/1FAIpQLSfmC61uA4ZXzzoMNJTXJfvpndv8bC3dP8psbmWA6Q7TytedHA/viewform>

Moreover, vendors are requested /highly encouraged to get themselves registered as suppliers at PPRA portal at the earliest through the following link;

<https://eprocure.gov.pk/#/supplier/registration>

As soon as vendors provide the required information, PPRA will approve the vendor as a registered supplier on EPADS after necessary verification in 2-3 days. A relevant video guiding on how to register is also available at the following link;

<https://ppra.org.pk/EPADS/mm/Suppn%20Registration.mp4>

Please note that the registration fee and annual subscription fee (for the first year) are exempted so far while it will be charged in the coming days, as informed by PPRA officials.
