

Dr. Muhammad Ashfaq Ahmad presented his research work regarding Optical and Structural Properties of CdS for Solar Cell technology in International conference on “NANOENERGY 2017” Helsinki, Finland

Dr. Muhammad Ashfaq Ahmad presented his research paper as ORAL presentation entitled “*A Simple and Facile Synthesis of Optically Cadmium Sulphide Nano-Structures*” at **4th International Conference on Nanotechnology, Nanomaterials & Thin Films for Energy Applications (NANOENERGY 2017)** being held on 26th July to 28th July 2017 at Aalto University, Espoo/Helsinki, Finland. The research work falls into category of Nanomaterials for energy applications.

He has also visited Advanced Fuel Cells and Solar Cells Group in the Department of Energy Technology, Royal Institute of Technology, KTH, Stockholm, Sweden.
