

COMSATS Lahore VPN Connection Guide (For Digital Library Access)

NOC (Network Operation Centre) of CIIT Lahore campus has established a VPN facility to provide its users an access to digital library from other networks (DSL, Dialup, Cable Network, wireless and, any other network that are used to connect their computer with internet at home).

Configuration For Windows 7/8:

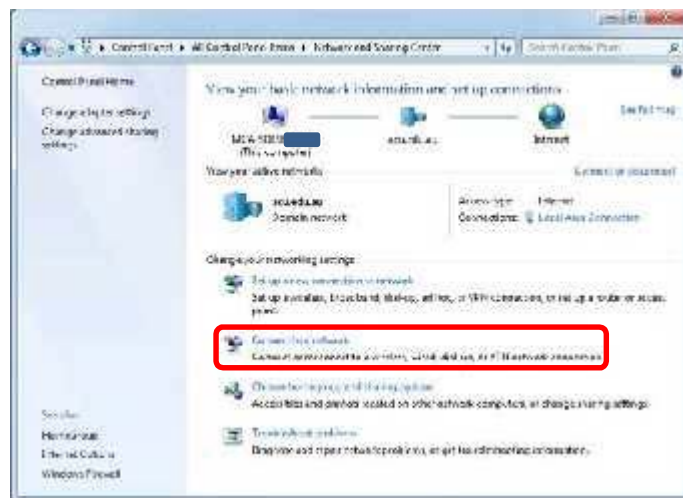

1. To start configuration, go to the **Start Menu** and up to the **Control Panel**.

2. In the Control Panel list, open **Network and Sharing Centre**.

3. In the Network and Sharing Centre window, select the option **Set up a new connection or network**.

4. Through the next 2 simple windows of the wizard, select the following options:

- 1) **Connect to a workplace.**

- 2) **Use my Internet connection (VPN).**
