STUDENT SERVICES CENTRE (SSC)

Student Services Center (SSC) is established to facilitate students by one-window operation in lieu of their all academic and non-academic issues. For this purpose, we have developed an online portal, referred to as the Student Facilitation System (SFS); which can be accessed both on and off campus. This portal can be utilized by the students for:

1. Putting up their queries under the relevant section / department such as registration, accounts, examination, IT, library etc.
2. Obtaining information about policies, rules, and procedures.
3. Checking status of their application/query/problem already uploaded or submitted.

The link to this portal (https://sfs.cuilahore.edu.pk/SFS/sfs.aspx) is available in every student's CU Online account. The username to access this portal is every student's registration number as mentioned on their student ID card and password can be obtained from SSC.

We humbly welcome you to the COMSATS family and wish you a memorable and productive time for the period of your degree program.

For any further information, please feel free to visit or contact us.
